

### Best suited for larger yards and designed to dry multiple loads.

The clever design provides environmentally friendly and low cost outdoor clothes drying.

The Rotary head can be folded down and the entire unit removed from the ground for storage.

Daytek's Rotaries are built on a reputation of quality and lasting reliability that is backed by our 10 year structural warranty.

The Rotary frame is manufactured from high strength galvanised steel and includes unique features providing high line strength and minimal line sag.

The rotary colour range designed to coordinate with popular roofing and exterior colours. A new range of colours is now available in Rotary Model 42.

**Model 32** is ideally suited to smaller families.

**Model 42** is designed to accommodate Queen size sheets.

**Model 52** is the largest and has an outstanding 52m of line space with sufficient length for a King size sheet.

Model	Number of lines	Line space	Max line length	Suits sheet size	Head diameter
